

The Virtual Learning Center

We are proud to announce that the Carthage R-9 School System has entered the 21st century in *style*, and is now offering all Carthage High School students a Virtual Learning Experience!

The Virtual Learning method allows students more freedom and educational choices.

Do you
like to work on
computers???

The Virtual Learning Center is a free, on-line learning opportunity that can be compared to an on-line correspondence course with 50+ core curriculum and elective classes!

The VLC has 50 different core and elective classes that students can use to earn credit toward graduation.

Students also have the opportunity to **work on any school computer**, which gives them the flexibility to work when and where they wish.

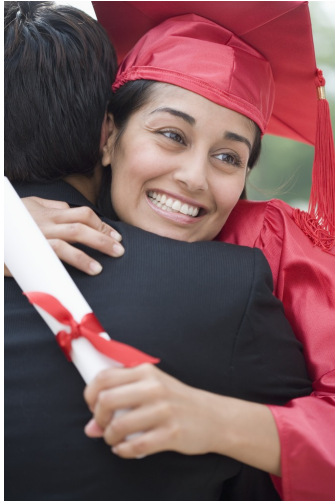

Get Going!

Get On-Line!

Talk to your counselor about the Virtual Learning Center!

Are you
behind in credits?!?

Do you
like to work on
computers?

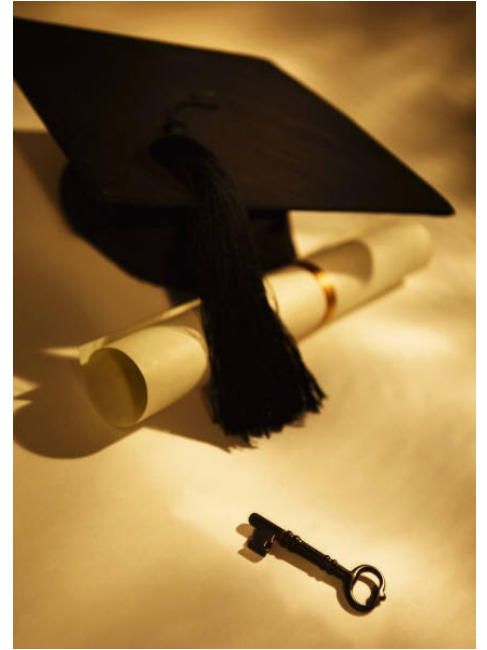

Do want to
graduate early?

I'll meet you at
graduation!
